- Life Skills-Language Arts   11B (5 Credits)
- Life Skills-Language Arts   12A (5 Credits)
- Life Skills-Language Arts   12B (5 Credits)

Course Description

This course focuses on functional language art skills. Functional language art skills are skills that the student will need to use in order to live independently. Some topics that may be covered include using a functional communication system, participating in adapted thematic literature units, understanding community, and vocational vocabulary. This is not an exhaustive list. Please refer to the student's last signed IEP for guidance on what functional language art skills are needed based on the student's IEP goals.

Generalization of these skills across the school, home, and community environments is the desired outcome to maximize students' independence and participation in all aspects of their lives.

Suggested Curriculum

- [Unique Learning Curriculum](#)- This is an online standards-based program that provides a leveled approach to teaching the subject matter.
