

Name _____

Car Sound

Story – Usually the car says, “K-k-k,” but when it comes before the sharp rock that has the letters Y, I, or E on it, it gets a flat tire, and small, quiet air comes out – “S-s-s-s.”

Hand cue: Hold your hand out, forming the shape of a C by cupping your hand. Move it along saying, “K-k-k.” When it hits the sharp rock (Y, I, or E), pretend to pull small air out of your mouth, “S-s-s.”
